

Raised Bill SB-1094 * Letter of opposition:

I strongly appose bill SB-1094.

The constitution states, "the right of the people to keep and bear arms, shall not be infringed."

By passing this bill, you would be 'infringing' upon the peoples rights stated in the second amendment. As well, it is the people whom abide by the law and constitution of the United States, which you would be confiscating these large capacity ammunition magazines from.

The bill would allow specific departments such as military and police to keep these magazines in possession, yet it is the law abiding civilian alone in which you are demanding to give up, without compensation, these magazines.

If this bill is passed, then my question is where does it end? How much of this amendment will eventually be destroyed? Then, what part of the constitution will eventually still remain? This would only be the first step in destroying what our forefathers had written as our constitution, building a free country and protecting it's citizens.

Sincerely,
Lorraine Lenihan
